

1.9 Improving Your Clinical Investigations for Medical Technology

1.9 Improving Your Clinical Investigations for Medical Technology workshops how to improve your company clinical investigations. It is provided by Mobius Medical, an MTAA training partner.

The Medical Technology Industry

The Australian medical technology industry includes Australian and overseas companies manufacturing and supplying medical devices, in-vitro diagnostics and medical imaging equipment. The medical technology industry makes a highly significant contribution to the quality of health care in Australia.

This module is offered by Mobius Medical, a training partner of MTAA. It compliments the MTAA **Medical Technology Regulation and Clinical Activities course**, designed as a series of modules to assist employees working in the regulatory and clinical areas.

What topics are covered in the module?

This is as an interactive, problem-based learning workshop for participants to present specific issues they have confronted in relation to clinical trial issues.

Participants are expected to provide issues for discussion prior to the workshop.

This workshop covers the following content.

1. Clinical investigation planning and design - pitfalls, problems, strategies, tips, etc.
2. Biostatistics (presented by Professor Val GebSKI, Professor and Director, Biostatistics and Research Methodology, NHMRC Clinical Trials Centre, University of Sydney).
3. Dealing with financial aspects of clinical investigations.

For further information, please contact Mobius Medical by email info@mobiusmedical.com.au

Learning outcomes

- Solves problems encountered with clinical investigations.
- Learns strategies to improve the conduct of clinical investigations.

Who should attend?

This course is aimed at people who have had experience in clinical trials, understand the clinical trial and Good Clinical Practice (GCP) process, but want to troubleshoot specific issues in more detail.

Module **1.8 Introduction to the Regulation and Design of Clinical Investigations for Medical Technology in Australia** or equivalent industry experience in developing clinical investigations are the recommended pre-requisites for this Level 2 module.

How much does it cost?

The cost of this half day module including GST is \$550. Once payment is accepted, applicants will be registered.

How do I register?

For details on how to register for the training, please email Mobius Medical info@mobiusmedical.com.au.

Please visit Training under Professional Development on the MTAA website www.mtaa.org.au to access MTAA course information.
