

## 5.13 Interpreting Medical Technology Industry Data

**5.13 Interpreting Medical Technology Industry Data** forms part of the **5.0 Workforce Development course** and will support those who have limited understanding of statistics interpret relevant data for the industry.

### The Medical Technology Industry

The Australian medical technology industry includes Australian and overseas companies manufacturing and supplying medical devices, in vitro diagnostics and medical imaging equipment. The medical technology industry makes a highly significant contribution to the quality of health care in Australia.

### What is the Workforce Development course?

Workforce development is seen as critical to enable employees to meet the constant challenges of the medical technology industry, and to address the strategic goals of the company. A range of modules are available as part of the *Workforce Development* course to address this learning need.

The *Workforce Development* course consists of a series of modules. Modules 5.1, 5.2, 5.3, 5.11, 5.12, 5.13, 5.14 and 5.16 are delivered as self-paced online learning. Modules 5.4 to 5.10 are delivered as online webinars. Module 5.15 is delivered face-to-face.

- 5.1 Introduction to the Australian Medical Technology Industry
- 5.2 Introduction to Leadership and Management
- 5.3 Management & Leadership Essentials
- 5.4 Implementing a Workplace Wellness Program
- 5.5 The Emotionally Intelligent Leader
- 5.6 High Performing Teams
