MTAA Education Course Directories

Fact Sheet for tertiary students

MTAA has listed over 1600 tertiary courses across Australia that are relevant to the medical technology industry.

Two online education directories listing these courses have been developed to assist students.

The **Undergraduate Course Directory** lists relevant courses for students wishing to complete undergraduate studies; while the **Post-graduate Course Directory** supports tertiary students or those already

in the industry who may wish to further their education. Courses may be searched by discipline, qualification, state and/or institution.

Both directories can be accessed online via the MTAA website by selecting

Professional Development, then *Education, Students*

<http://www.mtaa.org.au/pages/page182.asp>

or *Industry*

<http://www.mtaa.org.au/pages/page181.asp>
