

Information sharing

For Member CEOs

CEO Forums provide opportunities for senior executives to discuss high level key issues of relevance. Member Chief Executive Officers, Vice Presidents, National Directors and Managing Directors are invited to attend.

For Industry

Opportunities to discuss key operational issues are provided through **MedTech Seminars**, available as face-to-face workshops to all of industry; and **Webytes**, a free member only series of online webinars.

Other Information Sharing opportunities include the industry specific **Medical Technology Conference** offered annually; and the **Virtual Library**, providing online links to prominent documents relevant to industry via the member only section of the MTAA website.

Registration and Further Information

Online registration is available for all MTAA events. To find out more about MTAA Professional Development or to register, please visit the MTAA website www.mtaa.org.au or contact the Professional Development Manager.

About the Professional Development Program

Ongoing professional development is essential to developing and maintaining a knowledgeable and sustainable medical technology workforce. Industry employees require up to date knowledge, skills and understanding to deliver positive outcomes in the ever complex and changing healthcare environment.

Participating in MTAA professional development will foster excellence and provide ongoing learning to better enable and sustain workforce. A range of learning opportunities is available in the areas of:

1. **Education;**
2. **Training; and**
3. **Information Sharing.**

Training

For Industry

The MTAA training program aims to provide a wide range of opportunities through a blended learning approach that specifically address identified industry training needs. Six courses are available, each with a series of modules. Some are delivered face-to-face, while others are offered online as self-paced learning or live webinars.

1.0	Medical Technology Regulation & Clinical Activities
2.0	MTAA/MTANZ Code of Practice
3.0	Working with Healthcare Professionals
4.0	Reimbursement of Medical Technology
5.0	Workforce Development
6.0	Commercial Practices

The **MTAA Training Calendar** provides course information and dates. This is supported by **Learning Pathways**, developed to assist in identifying current and future training relevant to individual roles.

Education

For Industry

Medical technology industry employees can search for over 1100 relevant post-graduate courses in the online **Post-graduate Course Directory**. Users can search by discipline, qualification, state or institution to identify current education opportunities.

For Students

Secondary and tertiary students from across Australia can search the online **Medical Technology Industry Workplace Learning Directory** to identify MTAA member companies that offer workplace learning programs (work experience). Through this program, medical technology employers are supporting students to experience the workplace, while creating career opportunities in the industry.

The MTAA **Intern Scholarship** aims to provide opportunities for Australian university students to engage in a program of learning by completing an agreed project with an MTAA member company.

To assist potential students enroll in a course that will equip them with the necessary qualifications to enter the medical technology workforce, a searchable online **Undergraduate Course Directory** is available with over 1100 relevant undergraduate courses listed.

For more information on all directories and the Intern Scholarship, please go to www.mtaa.org.au and follow the link to professional development.
