Followed by tours of the Matthew Talbot Hostel and Ozanam Learning Centre.

Health4Homeless Team 23

In 2023, the inaugural year for the Health4Homeless team, we raised an outstanding \$79,000! Please join us in 2024 and help us raise our target of \$160k!

Participating in the Vinnies NSW CEO Sleepout is an action you can take to directly support health equity for people who are the most disadvantaged in our community. The St Vincent de Paul Society NSW runs its own health services, including specialist medical care, and provides referrals for people in need to externally provided healthcare.

Help The Society remove barriers to obtaining healthcare for people experiencing homelessness, domestic violence, and other forms of disadvantage by participating in the Vinnies CEO Sleepout and joining the Health4Homeless team.

By sleeping out for one night, you can show your commitment to ending homelessness, whilst raising vital funds to ensure fewer people will face the fear and uncertainty of not having a safe place to sleep.

Please RSVP to Warren Bingham at warren@medtechinternational.com.au by Wednesday, 28 February 2024.

Please advise any dietary requirements.

Dress code: Casual clothes e.g. jeans with a casual t-shirt. Shoes should be covered in and comfortable with a good grip on soles for all surfaces, wet or dry. (This is to ensure that the clients feel comfortable and comply with Vinnies WHS policies)
