## RAPS and MTAA Open Registration for Australia Regulatory Device Summit 2025

Sydney, AU — 4 April 2025 —The [Regulatory Affairs Professionals Society \(RAPS\)](#) and the [Medical Technology Association of Australia \(MTAA\)](#) have come together for the first time to produce [Australia Regulatory Device Summit 2025](#), a summit convening 17-18 July at ICC Sydney in Sydney, Australia. This two-day event will unite experts from Therapeutic Goods Administration (TGA) and global health authorities with regulatory professionals focused on medical devices and medical technology (MedTech), as well as other key industry stakeholders to address changes across the domestic landscape and key international topics of global concern.

MTAA CEO, Ian Burgess, expressed his enthusiasm for the collaboration, highlighting the benefits it will bring for the regulatory community.

“MTAA is excited to partner with RAPS to address the needs of our growing market. Leveraging our combined reach and expertise across the regulatory community, MTAA and RAPS will collaborate to deliver an in-depth program with engaging discussions, insightful knowledge exchange, and collaboration opportunities,” said Mr Burgess.

Building on the success of MTAA’s RegConnect24 conference, day one of the Australia Regulatory Device Summit 2025 will offer updates directly from TGA on recent reforms, international collaboration, software and AI regulations, audit framework and approval timelines, digital transformation, real-world evidence, and UDI. New for 2025, day two of the event will offer attendees international perspectives on vital issues such as European regulations (MDR), global regulations in AI, US regulations, IMDRF, and leadership skills for regulatory professionals.

Bill McMoil, RAPS Executive Director commented that “it is essential for regulators to understand how best practices and changes across the globe could impact their current state-of-play. RAPS and MTAA hope the Australia Regulatory Device Summit 2025 provides actionable takeaways and new connections that spark innovation, address challenges, and elevate regulatory strategies to effectively advance patient care.”

Registration is now open for Australia Regulatory Device Summit 2025. The complete programme agenda and speaker lineup will be announced in the coming weeks. To learn more, visit [www.ausregsummit.org](http://www.ausregsummit.org).

### ABOUT REGULATORY AFFAIRS PROFESSIONALS SOCIETY (RAPS)

The Regulatory Affairs Professionals Society (RAPS) is the largest global organization of professionals involved with regulatory and quality for healthcare products, including medical devices, pharmaceuticals and biologics, diagnostics, and digital health. Founded in 1976 as a neutral, nonprofit organization, RAPS supports and elevates

the regulatory profession with education and training, professional standards, publications, research, networking, career development, and other valuable resources. RAPS is home to the Regulatory Affairs Certification (RAC), the only post-academic professional credential to recognize regulatory excellence. The society is headquartered in suburban Washington, D.C., with chapters and affiliates worldwide. [www.raps.org](http://www.raps.org)

#### **ABOUT MEDICAL TECHNOLOGY ASSOCIATION OF AUSTRALIA (MTAA)**

The Medical Technology Association of Australia (MTAA) is the national association representing companies in the medical technology industry. MTAA aims to ensure the benefits of modern, innovative and reliable medical technology are delivered effectively to provide better health outcomes to the Australian community.

MTAA represents manufacturers and suppliers of medical technology used in the diagnosis, prevention, treatment and management of disease and disability. The range of medical technology is diverse with products ranging from familiar items such as syringes and wound dressings, through to high technology implanted devices such as pacemakers, defibrillators, hip and other orthopaedic implants. Products also include hospital and diagnostic imaging equipment such as ultrasounds and magnetic resonance imaging machines.

MTAA members distribute the majority of the non-pharmaceutical products used in the diagnosis and treatment of disease and disability in Australia. Our member companies also play a vital role in providing healthcare professionals with essential education and training to ensure safe and effective use of medical technology.
