MEDIA RELEASE

30 October 2026

MTAA Welcomes new Directors to its Board

The Medical Technology Association of Australia (MTAA) has announced the election of two new Directors to its Board, with **Matthew Bain of Vantive** and **Kristy Frappell of Oncobeta Therapeutics** to commence their terms on 27 November 2026.

MTAA Chief Executive Officer Ian Burgess welcomed the incoming Directors and congratulated four existing Directors who were re-elected.

> *"We're delighted to welcome Matthew Bain and Kristy Frappell to the MTAA Board and congratulate our returning Directors on their re-election," Mr Burgess said.*
>
> *"We had a particularly strong field of candidates this year, and I want to thank everyone who put their name forward and demonstrated their willingness to contribute to MTAA and the broader MedTech industry.*
>
> *"Matthew and Kristy bring valuable industry experience and perspectives to the Board as we continue our work representing and growing Australia's MedTech industry.*
>
> *"We also sincerely thank our retiring Directors for the time, expertise and commitment they have contributed to MTAA and our members."*

The four Directors re-elected to the Board are:

- **Chelsea Cornelius**, Stratos MedTech
- **James Doyle**, Stryker
- **Mick Trevaskis GAICD**, Device Technologies
- **Pat Williams**, Edwards Lifesciences

They join continuing Directors:

- **Warren Bingham**, MedTech International
- **Brendan Cummins**, Baxter International
- **Ofer Elboher GAICD**, Abbott
- **Jack Lancaster**, Evolution Surgical

About MTAA:

The Medical Technology Association of Australia (MTAA) is the peak association representing companies in the medical technology industry. MTAA aims to ensure the benefits of modern, innovative and reliable medical technology are delivered effectively to provide better health outcomes to the Australian community.

MTAA's membership spans Australian start-ups through to global MedTech leaders. Our members develop, manufacture and supply medical technologies used in the diagnosis, prevention, treatment and management of disease and disability. The range of medical technology is diverse, with products ranging from familiar items such as syringes and wound dressings, to high technology implantable devices such as pacemakers, defibrillators, and orthopaedic implants. Products also include hospital and diagnostic imaging equipment such as ultrasounds and magnetic resonance imaging machines, as well as digital health technologies such as remote monitoring devices and digital therapeutics.

MTAA members distribute the majority of non-pharmaceutical products used in the diagnosis and treatment of disease and disability in Australia. Our member companies also play a vital role in providing healthcare professionals with essential education and training to ensure the safe and effective use of medical technology.
